

SWE30010 Development Project 2: Design, Planning and Management

Sprint #2 Stage

Overview

You have done your first sprint (Sprint #1). Now, it is time for your second sprint. In this sprint, you use your previous data to help your sprint planning process, that is how the agile process is supposed to be and how the professionals do it. I also want you to experience these changes.

Sprint #2 – Some Differences from Sprint #1

This is Sprint #2.

Your team has just finished the first sprint. Your team is now required to perform another sprint to continue the development of the product, basically by identifying and developing items from your Product Backlog list (may be new or any unfinished items in your previous sprint – these unfinished items should now be put back in your Product Backlog).

Total work hours for the team in Sprint #2: Now that you have your team's actual velocity of your Sprint #1. You need to use this velocity in your current sprint planning meeting (16 Pass Task 9.1). You have a strict guideline to do this, please see the details in the task description below.

How your Sprint works:

We are doing 2-week sprints.

Start Sprint #2 on Monday in Week 9 (Day 1 of Sprint #2).

Day 10 of your Sprint #2 will be Friday the following week.

Suggested time frame of a 2-week sprint in Sprint #2 for DP2 purposes

Week	Your selected day	Tutorial day
9	Day 1	Feedback from Tutor
10	Day 6	Feedback from Tutor
11		Sprint review and Sprint retrospective

Sprint #2 Group:

For the group tasks in Sprint #2, you need to register your team in Doubtfire under the "Sprint #2 Group Tasks" and submit it as a group. Please do not call yourself "Sprint #2 Group" as there will be potential conflicts in group names.

20 Pass Task 11.2P Perform Sprint (Product) Review [Group Task]

1. Send an email to your tutor to book a time in your Week 8 tutorial to perform the sprint review. The time will be approximately 10 – 15 minutes.
2. Perform the sprint review with the stakeholder (your tutor) in Week 8 Tutorial

Your team must at least review the following:

- a. the items that were completed

Need a demo of the completed items to the stakeholder

- b. the planned items that were not completed (Why?)

Questions to consider:

- Q.1 Did your team under-estimate the level of complexity of the item in sprint planning meeting? How can your team get a better estimate on the level of complexity of an item in next sprint?
- Q.2 Did your team under-estimate the time required to complete the task? How can your team get a better estimate on the time required to complete a task in next sprint?
- Q.3 Is the task description of the item too vague for the work? How can your team achieve a better task description next time?
- Q.4 Poor design of the program? How would your team improve on the design of the program in next sprint?

Other questions? (Please specify)

Note: Remember to book a time (e.g. 10 – 15 minutes) with your tutor for the demo **early**.

3. Document the sprint review meeting minutes, including any comments/suggestions from the stakeholder for improvements

Submission Details and Assessment Criteria

Each team needs to create a new group on Doubtfire called it Your Sprint #2 Group. Each team needs to create a document (pdf) in **portrait** mode³. You need to organize yourselves so that a person in your team will be responsible for uploading the document to Doubtfire, with the following details:

- Your names and student IDs
- Your tutorial class (e.g Thu 12:30 ONL068 or Thu 12:30 ONL069)
- Your tutor's name
- Details (name and student ID) of your team members
- Your group responses to the tasks according to the corresponding instructions

Remember, whoever submits the document the latest will overwrite the previous submissions. Since Doubtfire does not keep the previously submitted documents, the previous submissions will be gone forever.

What to submit

Submit the sprint review meeting minutes as a pdf file

³Landscape mode pdf does not work properly in Doubtfire.
